BEYOND THE SWATCH

What it is made of

Close-ups of real materials from the range, with what the current site says about each one.

Zebra
Two layers of translucent and opaque stripes that slide past each other, so you choose open or closed by where you stop.

Honeycomb
100% non-woven polyester joined at the pleats into double cells, which trap air for heat and sound insulation.

Bamboo & woven wood
Bamboo, rattan, jute, grass and reeds: rich natural textures that bring the outdoors in.

Curti Voile
Flowing fabric vanes with no weights or chains. You can walk through them and they sway back into place.
