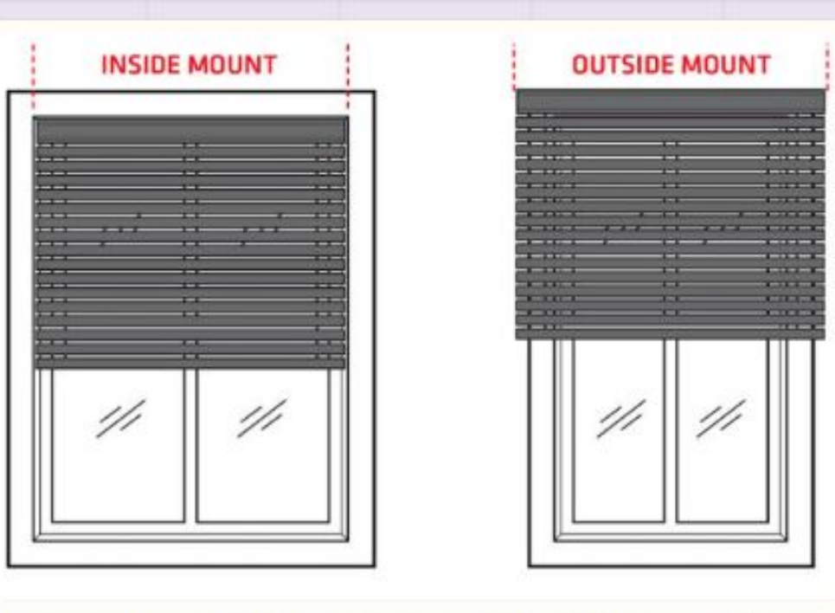
How do I measure?

Three rules and a tape measure. Everything in **millimetres**.



1. Inside or outside? Inside mount (top fix) or outside mount (face fix). Inside is the most popular, because your blinds are out of the way.

2. Check the depth. To fit inside you need at least **60 mm** inside the sill, from the window or burglar guards to the edge. Vertical blinds need **90 mm**.

3a. Inside mount. Window sizes can vary because of plastering, so measure the width and the height **three times** and write down the **smallest**. We subtract 10 mm for clearance. Example: width 1250 × height 980.

3b. Outside mount. Measure the width and drop and add at least **50 mm** to each side, top and bottom. For vertical blinds add **100 mm**. Example: width 1350 × drop 1080.

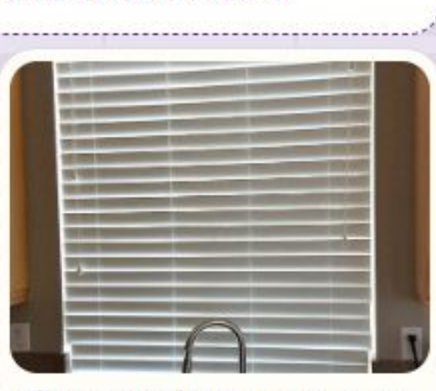
Measure three times. Write down the smallest.

TRY IT: THREE WIDTHS

First	Second	Third
1253	1250	1256

Write down **1250 mm**. That is the smallest, and we subtract 10 mm for clearance on an inside mount.

Tape against the sill edge to check the depth.



Tiles at the sill? Measure up to them, or measure them as a cutout (extra cost).

Measuring a **sliding door**? The guide says an outside mount is best, going 100 mm over the sides and top, so door handles don't get in the way.

How do I get the 10% off?

Measure your own windows and send me the measurements: that earns you an **extra 10% discount**.

Once we receive your deposit, a representative visits to verify your measurements.

What if I get it wrong?

Ask for **self-measuring insurance** when you order:

- It costs **3%** of the total amount of your blinds.
- We replace no more than **30%** of the number of blinds on the order.
- It covers a measurement that is out by no more than **60 mm** per blind.

If you don't ask for it, we are not responsible if mistakes are made.

Ask for it when you order!

How does a quote work?

It's **free**. Measure your windows, then send me the blind you like, the colour and your sizes by WhatsApp or email.

I send you a quote by email or WhatsApp. When you accept it, we send an official order. After the deposit is paid, a measurer checks your measurements if you are in Durban and surrounding areas.

Want to start now? Fill in what you can and I'll show you the message.

What does a call-out cost?

If you'd rather I send someone to measure for you, there is a cash call-out fee, **from R300**, depending on the distance from Pinetown.

It's paid in cash to the consultant, and it is **refunded when you place your order**.

Measuring yourself is what earns the extra 10%, so have a look at how to measure above if you're up for it.

Ask me to measure

Can you fit them?

Yes, at your home or office, or we can deliver to your doorstep. Fitting is the call-out fee for your distance, plus a fee per blind:

1 or 2 blinds	R150 each
3 or 4 blinds	R130 each
5 or more	R110 each
Panel blind	R200 each
Outdoor roller blind	R500 each

Happy to fit it yourself to save money? Headbar-style roller blinds are the easiest to install.

Please check your blinds after they are fitted and make sure you're happy with the job. Comebacks are charged as per call-out fees.

What's the guarantee?

Every blind comes with a **3-year carry-in guarantee**.

If you find a factory fault, take a photo and send it to me. I'll tell you if it must be repaired at the factory, in which case you bring it to our offices (that's the carry-in), or if we can send a technician. On-site fixes are within a 50 km radius of our offices.

All blinds get a **double quality check**. If you break anything while fitting, bring it in and we repair it free of charge.

One honest thing: because every blind is custom-made, we **don't accept returns**.

So measure three times!

Ask about the guarantee

Can you clean my blinds?

In Durban and surrounding areas, yes: vertical, Venetian and roller blinds. Cleaning can't be done on site, but some repairs can.

Bring them in, or we take care of the removal and rehanging.

PICK-UP AND REHANG

Under 60 km from Pinetown	R400
60 to 100 km	R500

ROLLER BLINDS, CLEANING BY WIDTH

Under 1 m	R150
1 to 1.5 m	R200
1.5 to 2 m	R250
2 to 3 m	R300

If the drop is over 2 metres, add 10%.

Vertical blinds are cleaned per blade: R7 each when the drop is under 1.5 m, R9 each when it's over. Venetian prices depend on the type and width, so just ask me.

For a **repair** quote, send me a photo on WhatsApp with your details and what's wrong. Tell me if you'll bring the blind in or want it picked up.
