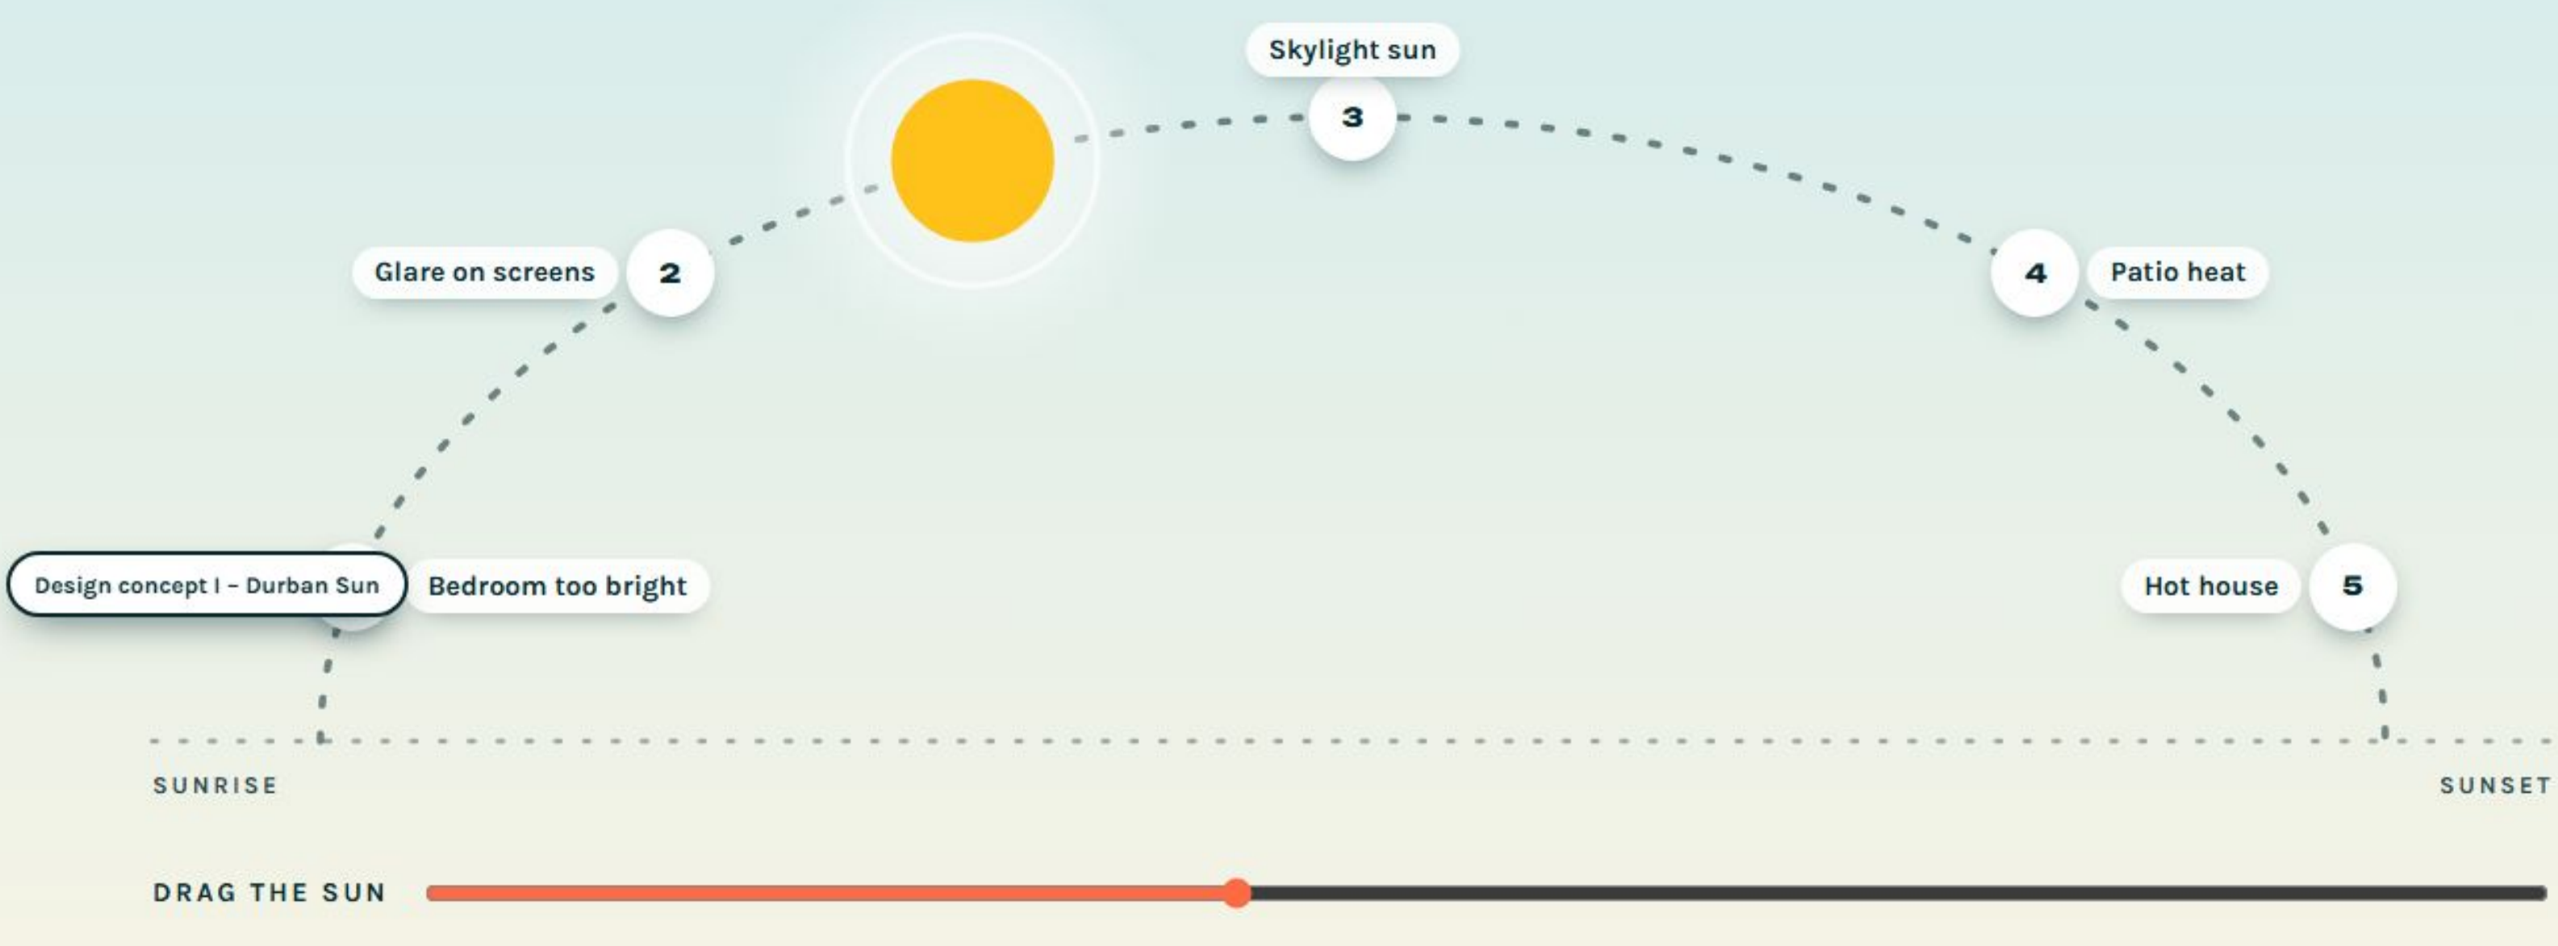
Outdoor roller blind with side wheel channel

1 2 3 4 5

Where is the sun hurting? Follow it across the sky.

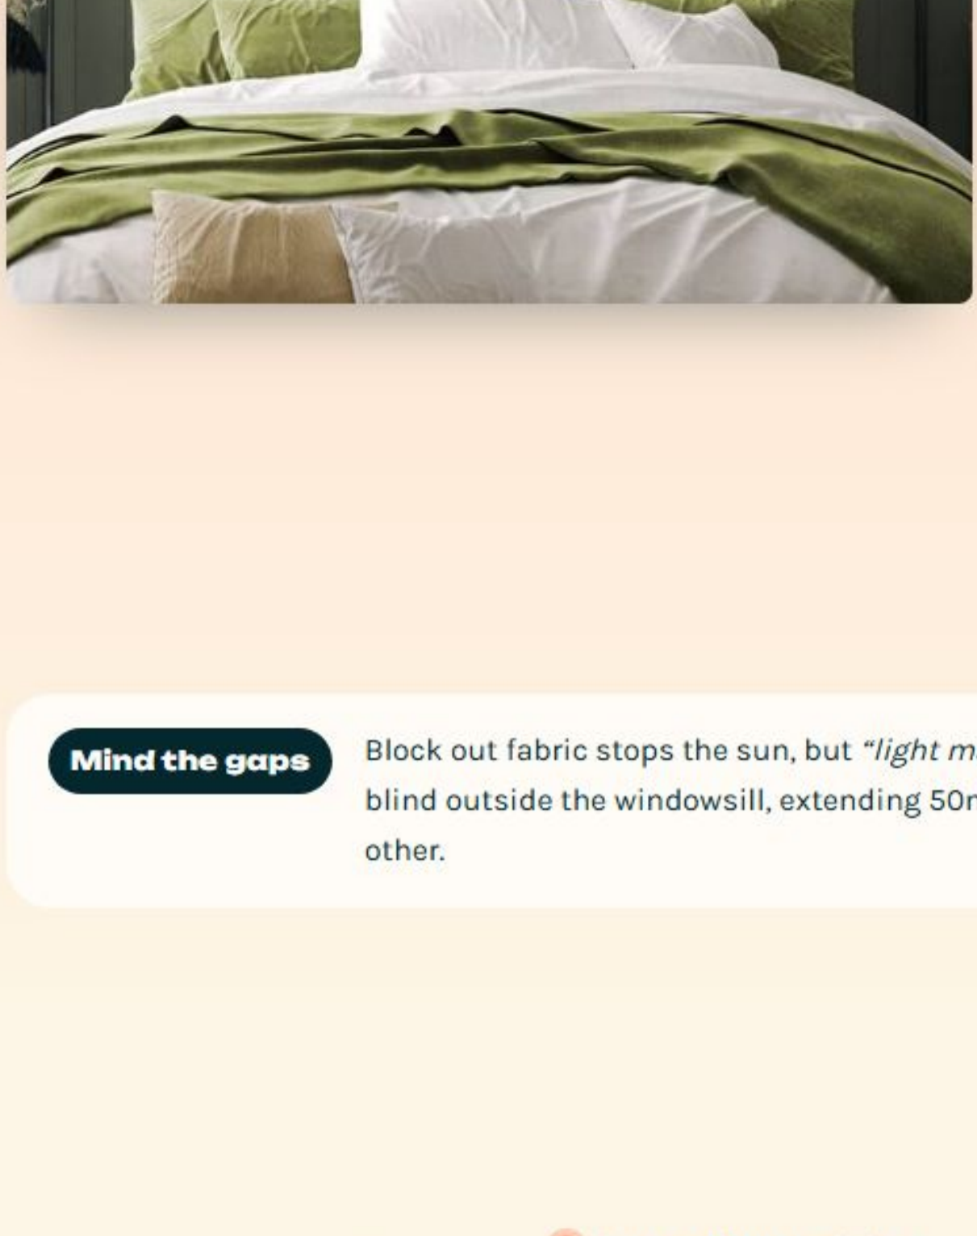
Five common problems, each with the real blinds that answer it.



SUN PROBLEM 1 OF 5

01 My bedroom is too bright

Block out blinds are made for this: *"ideal for bedrooms, ensuring uninterrupted sleep"*, and they protect your furniture from sun damage.



Block out roller blinds

Superior shading for your home. They also insulate from outdoor temperatures.

Block out · Max 2800 × 2500 mm on most fabrics · Motorisation optional

Ask about this →

Roller blinds with side channels

Side channels are there to eliminate light gaps at the sides of the blind.

Side channels · Bottom sealing rail · Cassette is an optional extra

Ask about this →

Day / Night system

Control the sun's glare by day and still have your privacy at night: one Shade Weave roller and one Block Out roller in the same window.

1 bracket system needs 9 cm depth inside the sill · 2 bracket system: no light gaps along the sides

Ask about this →

Mind the gaps Block out fabric stops the sun, but *"light may filter in on the sides."* For a tighter fit, choose side channels to eliminate light gaps, or fit the blind outside the windowsill, extending 50mm over the edges. Fitted inside the sill, expect a 25mm gap on the control side and 10mm on the other.

SUN PROBLEM 2 OF 5

02 Glare on my screens

Soft the light, keep the view. Light-filtering fabrics offer *"amazing blocking out of glare and allowing a little soft light to gently filter through."*

Light-filtering rollers

Light filtering, semi light filtering and semi block out fabrics, for a warm, inviting glow.

Max 2800 × 2500 mm · Easy to clean · Motorisation available

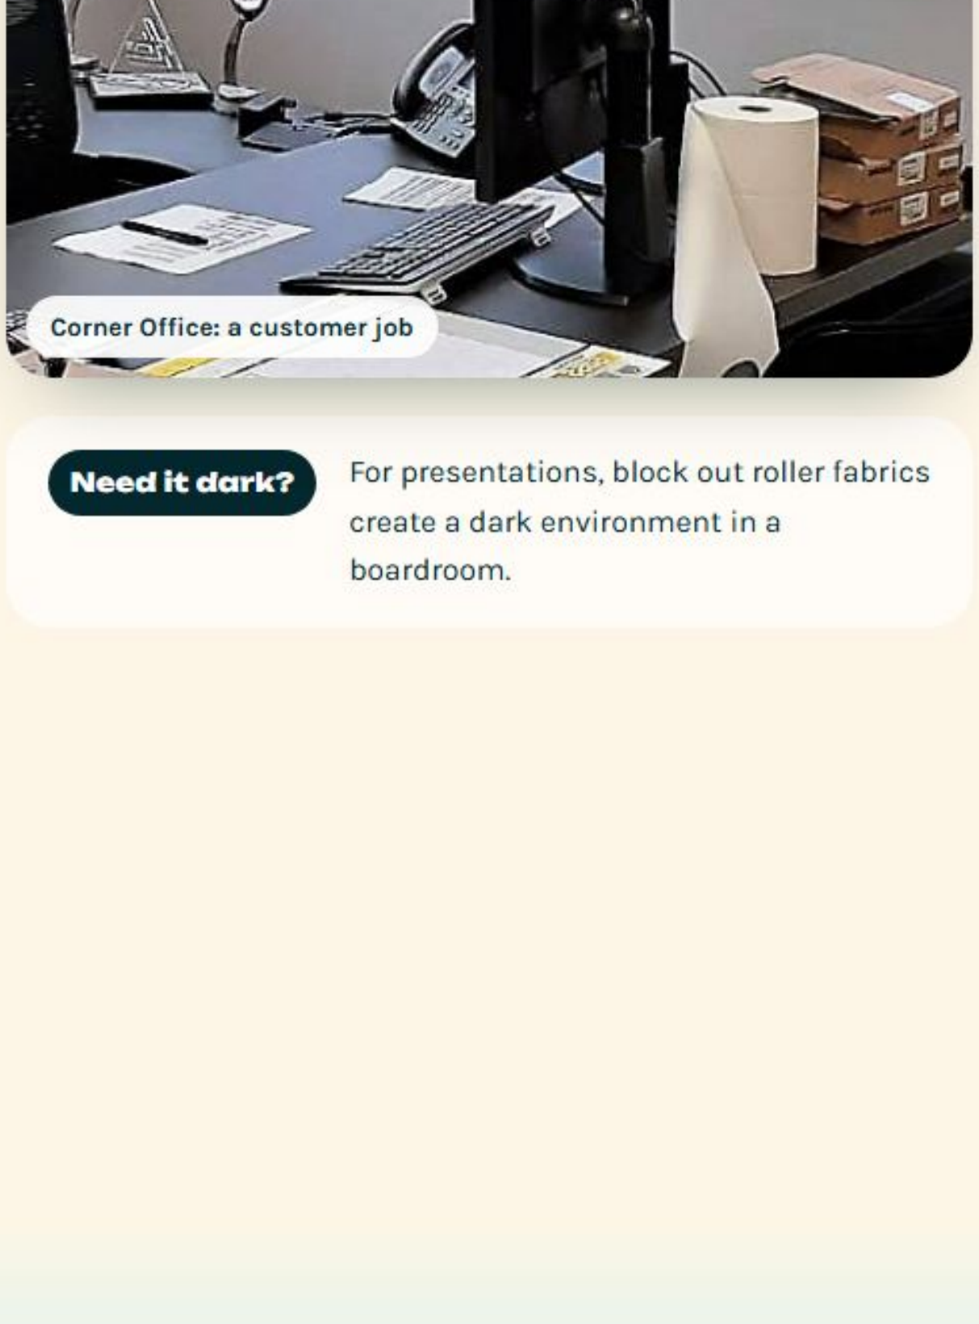
Ask about this →

Shade Weave sunscreens

Reduce heat and glare while letting the natural light you want in, with daytime privacy.

Solar reflection 70% · UV blockage 95% · Openness 5% · Outside visibility

Ask about this →



Corner Office: a customer job

Vertical blinds

With a simple pull of the cord you control how much light comes in, from a light-filtering soft glow to natural full light.

Windows & patio doors · Chainless option

Ask about this →

50mm Aluminium Venetians

Angle the slats for privacy and heat control: see out, without others seeing in.

Tilt angling · For bigger windows & doors

Ask about this →

Need it dark? For presentations, block out roller fabrics create a dark environment in a boardroom.

SUN PROBLEM 3 OF 5

03 The sun comes straight through my skylight

Skylight blinds

The SkyGide Zip Skylight System gives protection and privacy, creating a screen or block out environment for horizontal or sloped windows.

Block out or Shade Weave · Luxsol 4% opening · Horizontal & sloped windows

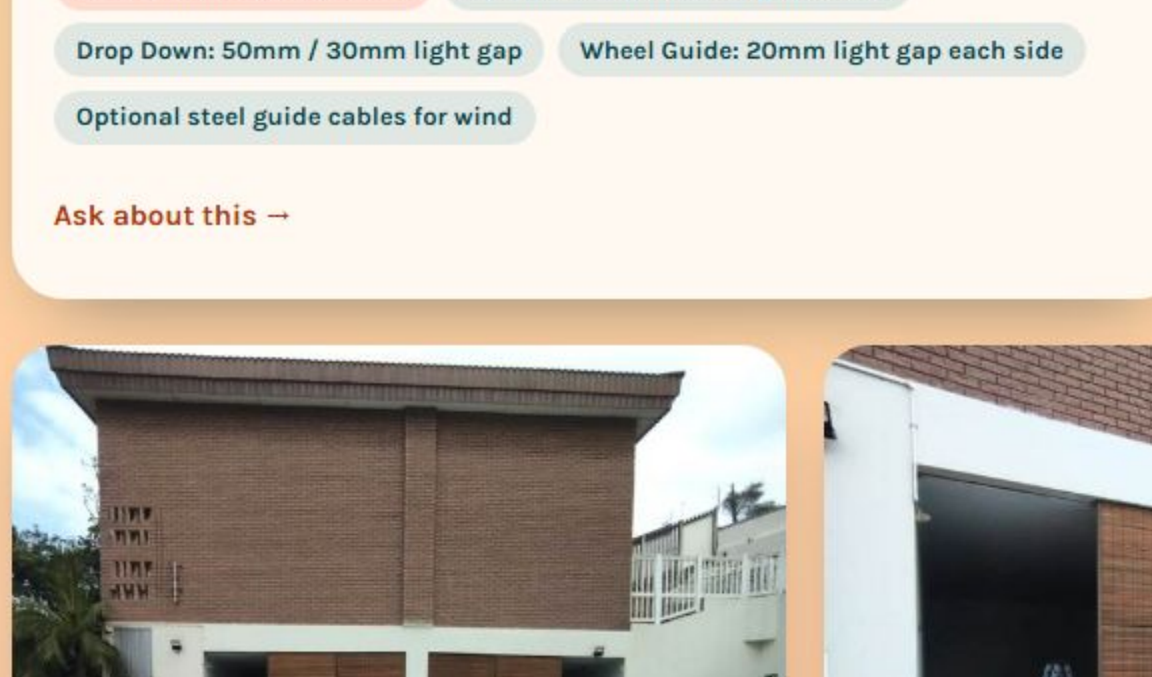
SUN PROBLEM 4 OF 5

04 My patio is too hot to sit on

Outdoor blinds that deal with heat and glare, and are built for the weather. Fitting is R500 per outdoor roller blind, plus the call-out fee for your distance.

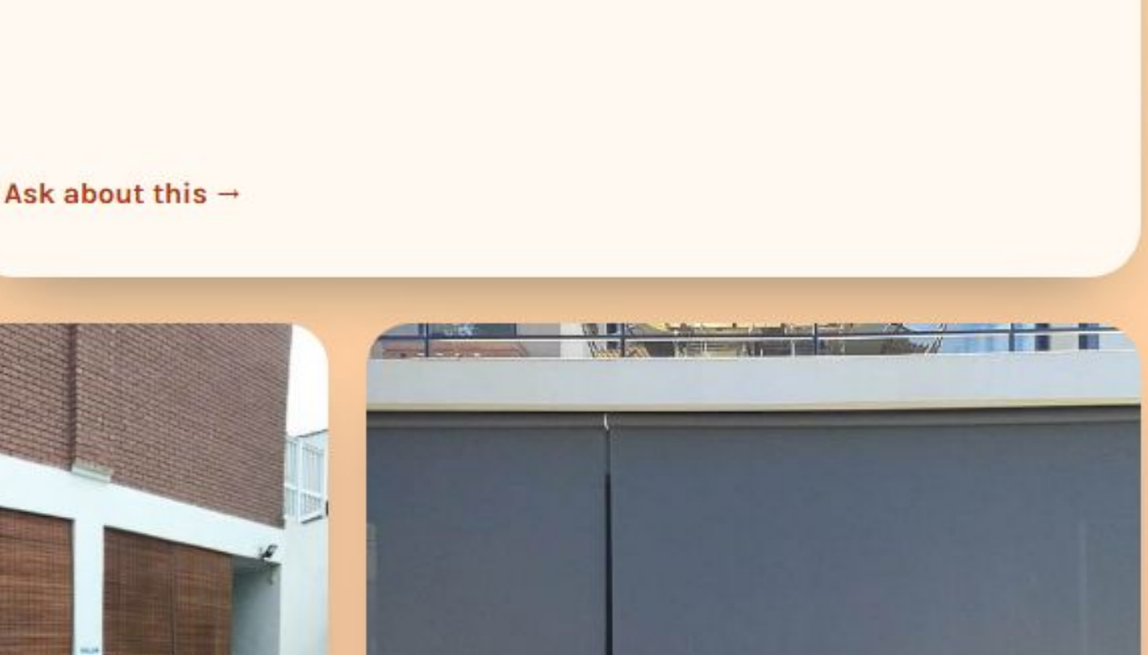


Outdoor Shade Weave rollers

The hi-tech Shade Weave fabric manages heat and glare on your patio while keeping your view. Lower and raise it with a removable crank handle. Hold-down clips let it stay down in windy weather.

Luxsol Shade Weave screen · Or Duratech block out light canvas · Drop Down: 50mm / 30mm light gap · Wheel Guide: 20mm light gap each side · Optional steel guide cables for wind

Ask about this →



Laguna Bamboo outdoor rollers

An extra room for your home: it keeps the warm air in on winter evenings and the hot air out on summer days. A wood protector coating with anti-UV and anti-fungus stabilizers makes it durable in all weather.

Anti-UV · Anti-fungus · Stainless steel carbine hooks secure it to the floor

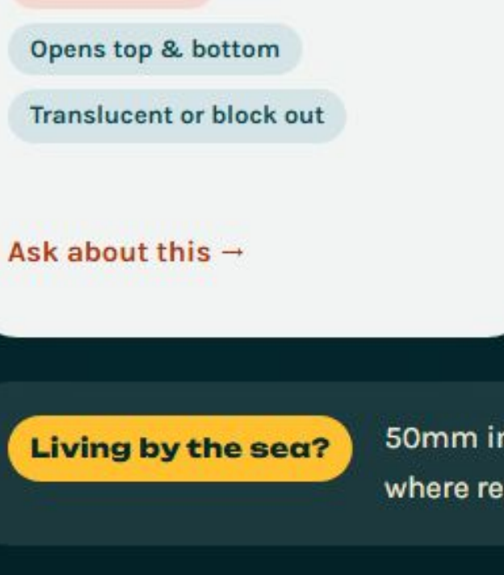
Outdoor roller, drop-down with crank

SUN PROBLEM 5 OF 5

05 The whole house runs hot

When the heat builds up indoors, insulating blinds help hold it back. These are the blinds in our range that are built to handle it.

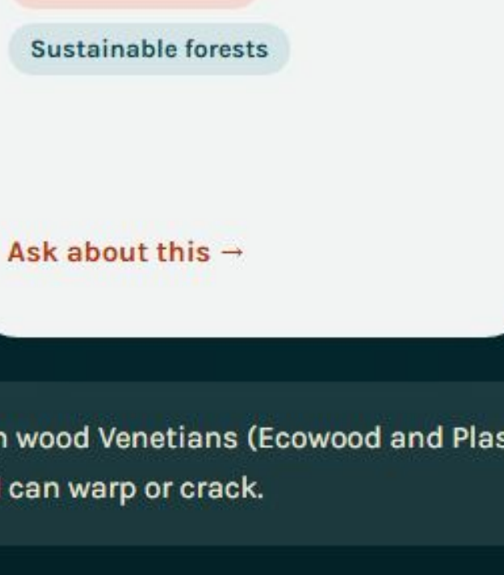


Honeycomb blinds

Double-celled to trap air, for greater heat and sound insulation. This saves on air-conditioning bills in summer and heating bills in winter.

Double celled · Opens top & bottom · Translucent or block out

Ask about this →

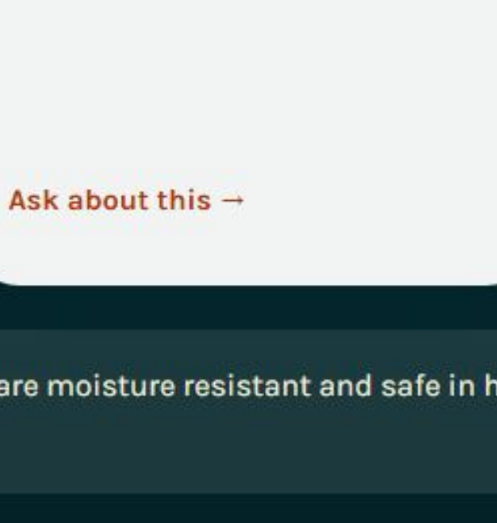


Real wood Venetians

Diamond-coated Basswood retains heat in winter and expels heat better in summer than metal, plastic and aluminium products.

50mm Basswood · Sustainable forests

Ask about this →



Bamboo roller blinds

Insulation against the summer heat and winter cold, with the beauty of natural textures.

Bamboo, rattan, jute, grass & reeds · Eco-friendly

Ask about this →

Antique Wood Venetians

50mm imitation wood in metallic and natural foiled finishes. UV-resistant and heat-reflective, made to withstand the harshest environments.

UV-resistant · Heat-reflective · Non-fading · Durable up to 15 years or more

Ask about this →

Living by the sea? 50mm imitation wood Venetians (Ecowood and Plaswood) are moisture resistant and safe in humid or wet spaces and coastal areas, where real wood can warp or crack.

THE NUMBERS ON THE LABELS

What the sun-fabrics say about themselves

These are the sun figures printed on our product pages, quoted exactly and shown with the fabric they belong to.

Figure	Label	Fabric
95%	UV blockage	Shade Weave and Solar Weave fabrics, indoor rollers.
70%	Solar reflection	Shade Weave base material, indoor rollers.
5%	Openness	Shade Weave and Prem-Weave indoor fabrics.
4%	Opening	Luxsol, the fabric shown for skylight blinds.

Not sure which fabric suits your window? Ask Sonja when you request your quote.

HOW IT WORKS

From sunburn to sorted in four steps

1. **Measure** Measure your own windows for an extra 10% discount. Or ask us to: the call-out fee is from R300 and is refunded when you order.
2. **Free quote** Send us your details by email or WhatsApp. We send you a quote by email, and an official order once you accept it.
3. **Deposit & check** After the deposit is paid, a measurer checks your measurements, if you are in Durban or the surrounding areas.
4. **Delivered & fitted** Delivered to your doorstep, or to any location in the country. We can fit them at your home or office.

3-year carry-in guarantee
On all blinds. All blinds undergo a double quality check.

Fitting, per blind
R150 for 1 or 2 blinds, R130 for 3 or 4, R110 for 5 or more. Panel blinds R200, outdoor roller blinds R500. Plus the call-out fee for your distance from Pinetown.

Made for you
Every blind is custom-made, so returns are not accepted. We can send you samples on request.
